

Consent Form

Thank you so much for your interest in this study!

Vibe coding refers to a form of AI-assisted programming in which developers rely heavily on AI to generate or modify code, sometimes with limited inspection of the generated changes. We identified that you may have used IDE-integrated tools, such as Cursor or GitHub Copilot, to make OSS contributions. We would greatly appreciate your perspectives on using vibe coding for OSS contribution.

If you are willing to participate, please review and sign the consent form below, and then share your perceptions of using vibe coding in OSS:

[Vibe coding consent](#)

By selecting “I agree” below, you confirm that you are at least 18 years old, have read and understood the information provided, have had any questions answered, have experience with programming and/or OSS

contribution, are able to complete the survey in English, and voluntarily agree to participate in this research study.

- ☐ Yes, I agree to participate.
- ☐ No, I do not agree to participate.

Age

What is your age?

- ☐ Under 18
- ☐ 18–24
- ☐ 25–34
- ☐ 35–44
- ☐ 45–54
- ☐ 55 or older

Demographics

What's your gender?

- ☐ Male
- ☐ Female
- ☐ Non-binary / third gender
- ☐ Prefer not to say

☐ Prefer to self-describe:

What is your current role or primary occupation?

- ☐ Student
- ☐ Software developer
- ☐ Researcher
- ☐ Educator
- ☐ Data scientist / ML engineer
- ☐ Product, design, or technical professional
- ☐ Prefer not to say
- ☐ Other:

How would you describe your programming experience?

- ☐ Beginner
- ☐ Intermediate
- ☐ Advanced
- ☐ Expert

How many years of programming experience do you have?

- ☐ Less than 1 year
- ☐ 1–2 years
- ☐ 3–5 years
- ☐ 6–10 years
- ☐ More than 10 years

How much experience do you have contributing to OSS?

- ☐ No experience
- ☐ A little experience
- ☐ Moderate experience
- ☐ Extensive experience

How often do you contribute to open-source software (OSS) projects (e.g., on GitHub)?

- ☐ Never
- ☐ Rarely
- ☐ Occasionally
- ☐ Frequently
- ☐ Very frequently

How familiar are you with the term “vibe coding”?

- ☐ Not familiar at all
- ☐ Slightly familiar
- ☐ Moderately familiar
- ☐ Very familiar
- ☐ Extremely familiar

How often do you use vibe coding for OSS development?

- ☐ Never
- ☐ Rarely
- ☐ Sometimes
- ☐ Often
- ☐ Very often

When did you **first start** using Vibe coding (e.g., cursor or GitHub copilot) in your GitHub or open-source contributions?

(An approximate date is fine, such as January 2024.)

Perceptions on Vibe coding

Overall benefits and risks of using Vibe coding in OSS.

	Strongly disagree	Somewhat disagree	Neither agree nor disagree	Somewhat agree	Strongly agree
Overall, vibe coding has more benefits than risks for OSS contribution.	☐	☐	☐	☐	☐
Overall, vibe coding has more risks than benefits for OSS contribution.	☐	☐	☐	☐	☐
Vibe coding makes me more willing to contribute to OSS projects.	☐	☐	☐	☐	☐
Vibe coding lowers the barrier to contributing to OSS projects.	☐	☐	☐	☐	☐
With AI support, I feel more comfortable making my first contribution to an OSS project.	☐	☐	☐	☐	☐
Vibe coding makes me more confident about contributing to OSS projects I previously hesitated to join .	☐	☐	☐	☐	☐

Perceptions of the quality and maintainability of **AI-**

generated code contributed by you in OSS.

	Strongly disagree	Somewhat disagree	Neither agree nor disagree	Somewhat agree	Strongly agree
Code I generate through Vibe coding often requires substantial review before it can be trusted.	☐	☐	☐	☐	☐
I would hesitate to submit my AI-generated code unless I had reviewed it very carefully.	☐	☐	☐	☐	☐
I feel pressure when others merging my AI-generated code into OSS projects.	☐	☐	☐	☐	☐
I have less trust in the quality of my code when a large portion of it is AI-generated.	☐	☐	☐	☐	☐
Using vibe coding increases my confidence in preparing a code contribution.	☐	☐	☐	☐	☐
Code I generate through Vibe coding may require extra effort to maintain later in OSS projects.	☐	☐	☐	☐	☐
I am concerned that my vibe-coded contributions may create a long-term maintenance burden for a project.	☐	☐	☐	☐	☐

Perceptions of the quality and maintainability of **AI-generated code contributed by others** in OSS.

	Strongly disagree	Somewhat disagree	Neither agree nor disagree	Somewhat agree	Strongly agree
AI-generated code produced by others often requires substantial review before it can be trusted.	☐	☐	☐	☐	☐
I would hesitate to approve or merge others' AI-assisted code unless I had carefully reviewed it.	☐	☐	☐	☐	☐
I feel pressure when merging AI-generated code into OSS projects.	☐	☐	☐	☐	☐
I have less trust in the quality of others' code when a large portion of it is AI-generated.	☐	☐	☐	☐	☐
Using vibe coding increases my confidence in reviewing others' code contributions.	☐	☐	☐	☐	☐
Code generated by others through vibe coding may require extra effort to maintain later in OSS projects.	☐	☐	☐	☐	☐

Strongly disagree Somewhat disagree Neither agree nor disagree Somewhat agree Strongly agree

I am concerned that others' vibe-coded contributions may create **a long-term maintenance burden** for a project.

☐ ☐ ☐ ☐ ☐

Perceptions of social image and reputation of using Vibe coding in OSS.

Strongly disagree Somewhat disagree Neither agree nor disagree Somewhat agree Strongly agree

I worry that others may **look down** on me if I use vibe coding.

☐ ☐ ☐ ☐ ☐

I worry that vibe coding may make others **question my technical ability**.

☐ ☐ ☐ ☐ ☐

I worry that using vibe coding for OSS contributions could **negatively affect my reputation**.

☐ ☐ ☐ ☐ ☐

I would feel pressure if others knew **how much I rely on** vibe coding.

☐ ☐ ☐ ☐ ☐

Strongly
disagree

Somewhat
disagree

Neither
agree nor
disagree

Somewhat
agree

Strongly
agree

I would **feel uncomfortable if my vibe coding chat history** were attached to my OSS contribution.

☐

☐

☐

☐

☐

If my chat history with an AI tool were made public, I would be **more careful about how I write prompts.**

☐

☐

☐

☐

☐

Publishing chat history could help others better understand how an AI-assisted contribution was created.

☐

☐

☐

☐

☐

I worry that published chat histories could be **misunderstood or judged unfairly by others.**

☐

Authorship, credit, and responsibility

	Strongly disagree	Somewhat disagree	Neither agree nor disagree	Somewhat agree	Strongly agree
I feel concerned about being credited as the author of code generated through Vibe coding.	☐	☐	☐	☐	☐
AI-generated code makes contribution credit less clear .	☐	☐	☐	☐	☐
Even when I use AI, I believe I should remain fully responsible for the code I contribute .	☐	☐	☐	☐	☐
I would want clear community guidelines about how AI-assisted contributions should be disclosed.	☐	☐	☐	☐	☐

Would you be willing to disclose your use of AI or share your chat history when contributing to OSS?

- ☐ Yes
- ☐ No

If you would not feel comfortable sharing your use of AI or your AI chat history, what concerns would you have?

In what situations, if any, do you think vibe coding is appropriate for OSS contribution? Select all that apply

- ☐ Fixing small bugs or typos
- ☐ Improving documentation
- ☐ Writing or improving tests
- ☐ Refactoring code without changing functionality
- ☐ Implementing small, well-scoped features
- ☐ Exploring possible solutions before writing the final code
- ☐ Understanding unfamiliar codebases
- ☐ Generating initial drafts that are carefully reviewed by the contributor
- ☐ Preparing issues, pull request descriptions, or commit messages
- ☐ Responding to reviewer feedback
- ☐ Large or complex feature development
- ☐ Security-related changes
- ☐ Performance-critical changes
- ☐ I do not think vibe coding is appropriate for OSS contribution
- ☐ Other

In what situations, if any, do you think vibe coding should be avoided in OSS contribution? Select all that apply.

- ☐ Fixing small bugs or typos
- ☐ Improving documentation
- ☐ Writing or improving tests
- ☐ Refactoring code without changing functionality
- ☐ Implementing small, well-scoped features
- ☐ Exploring possible solutions before writing the final code
- ☐ Understanding unfamiliar codebases
